LOCKOUT-TAGOUT AGREEMENT

Project: _____

Date: _____

Address: _____

Willow Park, Texas 76087

Attn: Chief Building Official

RE: Temporary to Permanent Power for the _____ project located
at _____ Willow Park, Texas 76087

The City of Willow Park Building Inspection Division has agreed to green tag the Service Entrance Section for the purpose of switching Temporary to Permanent power to the job site under the following Lockout-Tagout conditions:

- 1) Service Entrance Section(s) once energized will be locked at all times with manufacturer approved lockout devices in which _____ will provide locks and keys.
- 2) Power to the building will only be provided while the job site electrical superintendent or an authorized agent of _____ is present on the job site.
- 3) _____ will bear the sole responsibility for maintaining constant supervision of all electrical power to the job site once the Service Entrance Section(s) have been energized without fail.
- 4) The City of Willow Park Building Inspection Division reserves the right to require disconnection of the power at any time without prior notification should any unsafe condition exist on this job site, or upon discovery of any unsafe or hazardous condition related to any electrical system(s) in this building, or upon discovery of the job site electrical superintendent or agent not being present on the job site while the building is energized.
- 5) _____ or any of the aforementioned authorized agents of either company agrees that they will wave any rights to connection or disconnection of any power granted for this project until a final inspection has been approved and a Certificate of Occupancy has been granted by the City of Willow Park.
